Conquest heat master

Skin crack move faster

Doomwatch got open eyes

Perversion never lies

Disaster blaster

Disaster blaster

Creature of destruction

Laughing dead corruption

Challenge to survive

Love butcher alive

Disaster blaster

Disaster blaster

Take a journey into fear

Demon warp invasion

Thunder wheels rolling

Crush 1000 faces

Sworn to fun and loyal to none

When the beast is clever

The best it ain't over

Walk alone on borrowed time

And kiss tomorrow goodbye

Sworn to fun and loyal to none
Lost inside a human zoo
Edge of life wants you
Got a grip on the wire
But my brain don't get no higher
Disaster blaster
Disaster blaster
Leather skin move to the beat
Beastman insulated heat
Looking for a sleeping dream
Hop-head body scream
In the morning
Ready to learn
What's happening
And who's gonna burn
Get on your feet
Time to die
On the floor
Machines don't die
Stealing the world
Walking away
Poison mind
Everyday
