artist: White Zombie

@album: Astro-creep

Yeah Jesus lived his life in a cheap hotel

On the edge of Route 66 yeah

He lived a dark and twisted life

And he came right back just to do it again

Eye for an eye And tooth for the truth

I ain't never seen a demon-warp dealin'

A ring-a-ding rhythm and juke-box racket

My mind can't clutch the feeling

CHORUS: Yeah Devil man Devil man Callin'

Devil man Runnin' in my head Yeah

Yeah Devil man Devil man Callin'

Devil man Runnin' in my head Yeah

Super lions leap at the cowardly kings

Carryin' souls 'cross theriver Styx Yeah

They see no evil and feel no pain

Suckin' juice from a fallen angel

I dreamed I was a super-nova fucker

Nitro burn and fuel-injection

Feed the gods a strike-9 soul

A mother-fucker of invention

CHORUS:

(spoken:) "It's not heresy and I will not repent!"

Yeah Inbreed the witches and worship the dogs

Deformed and fucking lazy

Bang your wares The jokin' man

I'd love to love ya Baby

Dead-ringer rats are swingin' in the trees

Immaculate conception

Bury me an angel God

I need some inspiration

CHORUS
