Lost in a dimension where a
Three head monster showed his heads
Twice for other people, once for me

Why do all these creatures come in 3's
Dimension dial up, this call is free
All for free
Why do things come in three
Dimension dial up

Is what I need reality
Twice for other people, once for me
Why do all these creatures come in 3
All for free
No, leave me alone
I gotta go

Why do things come in three
I've got a job that's criminal pathy
I need time and space to relate
Put a little cake on your plate and

Get down on you're knees and prey
Get down on your knees and pray that
I'm part of the problem
I'm really not, no I'm really not, really

Call it off
Dimension dial up
This call is free
All for free
