Keep on strivin

Keep on strivin

[ VERSE 1: Tragedy ]

I keep strivin and never quit

Until I make the jam that hits

Cause my name is Trag and Trag never quits

Even though I had doubts in the back of my mind

And I felt like givin up from time to time

But I was destined for fame and one day I would shine

Cause I don't need rings and a fat gold chain

All I need is a aim and a positive brain

Cause you gotta stay strong and go for yours

Trials and tribulations form detours

But I keep on movin and never throw the towel in

Hungry, cause my stomach's growlin

Fame is a pool and in it I'm divin

I keep movin and keep on strivin

Keep strivin

Keep strivin

Keep strivin

Keep strivin

[ VERSE 2: Tragedy ]

You wanna hear hard times? Man listen

The Trag didn't even have a pot to piss in

I was sick of police snatchin me up by the collar

Cause I was on the block tryin to make a fast dollar

Cause I need money but crime's not the answer

Now I'm making money with my DJ and my dancer  
When things got rough I had to sell my cable  
Cause I couldn't get a deal from a record label  
In the rap game you're bound to get jerked  
But I kept the dream, then I put it to work  
Kept my eyes upfront cause I couldn't look back  
And I never had time for the jealous crap  
Cause whether you're doin wrong or you're livin good  
Somebody's gonna say you're not doin what you  
should  
The more I learned the less I could care  
Cause criticism is somethin I'm not tryin to hear  
Fame is a pool and in it I'm divin  
I keep movin and keep on strivin  
Keep strivin

Keep strivin  
Keep strivin  
Keep strivin

[ VERSE 3: Tragedy ]  
When the road gets rough and life gets trife  
Just bear it, you're gonna have to sacrifice  
Cause in this world only the strong survive  
Many a mornings I've searched for a nine to five  
My stomach growlin and my pockets hurt  
And for the whole week I wore the same t-shirt  
But I came too far just to turn around  
So kept my mind on the higher ground  
More sessions in the studio got delayed  
(Yo man, today Kane's workin) Yeah, I got played  
Hangin up at this radio station every week  
Just to get on the mic and get a chance to speak  
Just to show my talent like I knew I could  
Cause deep in my heart I knew I was good  
Motivation would build my skill  
I never gave up and I never will  
I take the chance to go for mine  
So lay down the track and watch me shine  
With dreams, some try to tear it  
Hold me back and break my spirit  
I battle and fight cause the struggle gets longer  
The more you doubt, it makes me stronger  
Fame is a pool, so let me dive in

I keep movin and keep on strivin  
Keep strivin

The world is yours  
(Keep on strivin)  
Keep on strivin  
(Gotta hold on, hold on, yes you do)  
On  
On  
On  
(Hold on)
