

Junior Varsity, The "Big Little City Killing Machine"

Visit "[Big Little City Killing Machine](#)" on MotoLyrics.com

If trying seems so hard,
you'll know what to do
You'll know what comes next(repeat)

Can someone tell me why
the floor is better than the bed
Just roll 3 feet either way and I'm still on it
This sense of stability is what lacks in my life
Can someone live my life for me?

This sense of stability is what lacks in my life.
A helping heart a hand
A head full of unrelated thoughts
Now someone tell me why
this floor is better than the bed
Just roll with it

And I'm still on it
The easiest mistake
I've made in years

Now won't you try for me? (repeat 3x)

Can someone tell me why
the floor is better than the bed
Just roll 3 feet either way and I'm still on it
This sense of stability is what lacks in my life
Can someone live my life for me?
