Watch me become what I wasn't to those who know me
so well
I'll be home forever sorry fellow griggoners
This is the first time
that I am dressed to kill someone else
This is the last time
I now keep to myself

I take back everything I said because everything feels
different
I've become everything i hate but things are getting
better
I learn from my mistakes because I have made so
many
in this whole new hole a home for me

In my new city
I'll be stronger

And this is what I made, this is where I'll stay
This is what you say
This is just a phase

And you're changing and
I'm changing
Why change things?
