

## **Junior Varsity, The "When We Meet Aliens"**

Visit "[When We Meet Aliens](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I see no ground or sky  
I "don't not" see people  
And sometimes I do

I have no time to waste  
Searching for answers  
To questions that have none  
We'll all die, I can live with that.

You say you found a way to sit inside my skin  
I say "don't worry" cause it's coming around again  
I finally found a way to fit inside my skin  
I begged "don't worry" cause I always come through in  
the end

Dont keep a collection  
Piling up up  
Counting all of your karma

But you are still  
Searching for answers  
To questions that have none  
We'll all die, I can live with that.

You say you found a way to sit inside my skin  
I say "don't worry" cause it's coming around again  
I finally found a way to fit inside my skin  
I begged "don't worry" cause I always come through in  
the end
