### "Fair Weather Friends"

Visit "[Fair Weather Friends](#)" on MotoLyrics.com

I know you know of someone You thought was your  
friend  
But when you get down they don't come around, they  
don't need you then  
But true friends are there your troubles to share and to  
show  
their not a fair weather friend to you

Chorus:

Fair weather friends are not really friends at all  
From time to time, I know you'll find when you call  
Upon someone you thought you could depend, But  
then  
You find fair weather friends are not really friends at  
all

I know you know of someone who once was your friend  
who's down on their luck, life's treated rough and they  
need a hand  
the kindness displayed could show them that they have  
a friend  
Not a fair weather friend in you

Chorus:

Fair weather friends are not really friends at all  
From time to time I know you'll find when you call  
Upon someone you thought you could depend  
But then you find fair weather friends are not really  
friends at all  
You find fair weather friends are not really friends at  
all
