"Just a Dream away"

Visit "[Just a Dream away](#)" on MotoLyrics.com

Maybe I should head out west some time take a trip
and try to clear my mind
A little more air and a little less wine
Maybe I could get myself inline

Rubber wheels on an old Highway rolling off to find
better way
Greener Pastures I heard someone say
It's just a dream away

Dark and blue gloomy weather it's been that way
every morning till the end of day
I've been traveling can't find my way
soul searching my mind today

Rubber wheels on an old Highway rolling off to find
better way
Greener Pastures I heard someone say
It's just a dream away

Rubber wheels on an old Highway rolling off to find
better way
Greener Pastures I heard someone say
It's just a dream away

Just a dream away
just a dream away
just a dream away
