"Last Summer"

The Friday sun bears down again

As we drive with our friends

And on these longest days we spend

All the time trying to pretend

That our stories could be true

Our chance to be cool

The setting sunset says the day is through

If only we knew...

And we all sit around here in our home town

Listen to the waves as they all crash down

And watch the fire as it slowly burns away

Glowing embers fly across the sky

Here by my side, in my summer, our last summer

The world passes by in my summer, our last summer

The light makes shadows fall, surrounded by each other

Alive to watch it all, the view from our last summer

The view from our last summer...

We trace the sun across the sky

And we laugh till we cry

Always so hard to say goodbye (good bye)

And we all sit round here in our home town

It's so good like this, these are times we'll miss

The memories, I hope they'll never fade

Glowing embers lie across the sky

Here by my side, in my summer, our last summer

The world passes by in my summer, our last summer

The light makes shadows fall, surrounded by each other

Alive to watch it all, the view through our last summer

The view from our last summer...

I would stop time to stay with you

I would stop time so we don't move

I would stop time

I would stop time

I would stop time to keep you

Here by my side, in my summer, our last summer

The world passes by in my summer, our last summer

The light makes shadows fall, surrounded by each other

Alive to watch it all, the view from our last summer
