I set my eyes to the west, walkin'™ away from it all
Reachin'™ for what lies ahead, I got my eye on it
I see my sweat hit the ground, I put my foot in the block
This is the race of my life and I can't™ wait for this
shot

~Cause I can feel the wind at my back
Chest is pumpin'™ like a heart attack
Feet are movin'™ and my mind is locked
Pressin'™ on with everything I got

I got my eye on it
I got my eye on it
I got my eye on it
Eye on it

Eye on the prize
I got my eye on it
I got my eye on the prize
I got my eye on it
I got my eye on the prize
I got my eye on it

I got my eye on it and I will not quit
I got a new passenger to help me navigate the way
So when my heart hits the floor, I can recalibrate
I feel the deeper callin'™ me, all else is fadin'™ in
the past
So let me run in the race that I know is built to last

~Cause I can feel the wind at my back
Chest is pumpin'™ like a heart attack
Feet are movin'™ and my mind is locked
Pressin'™ on I gotta take my shot
REPEAT CHORUS
