It's been a long time coming  
Since I saw your face  
Since we held it down  
Since we were in the chase  
It was the road less traveled  
The path less formed  
A skinny trail  
It was barely worn  
But we kept on walkin' and slippin' and talkin' and  
runnin' and fallin' and cryin' and crawlin'  
We were in the trenches  
On top of the world  
Young refugees but we were momma's pearls  
Where you been dog? Where you been?

I thought you fell of the face of the earth â€¦

It's been way too long and we've come to far  
For you drop out my life like a falling star  
Right off my radar  
Not a sign or a trace  
You know I had love for you that's bigger than mistakes  
Now Hope road is calling  
Let's pack you up and move  
'Cause real friends are willing to intrude  
So I'm gonna push in cause I wanna love you well  
Let the ghosts of your past rest

Open up the door  
This is the first day of the rest of your life  
What are you waiting for?  
This is the first day of the rest of your life

Open up the door  
To life â€¦

Behold I stand at the door and knock  
If anyone hears my voice and opens the door  
I will come in â€¦
