God is Love  
by John Reuben

[CHORUS:]  
Love is God and God is Love  
No one's below, no one's above

Thinking of my past motivates my future  
Will I make or break, love or hate  
Who's the fake 'n' who's the snake, man?  
Who can I trust?  
So many promises I've seen bust  
Justice is never accomplished  
Gotta let that go and keep on moving  
Yeshua illuminate my path, keep me tuned in  
So much negative around for me to get consumed in  
But I still have peace in the midst of confusion  
I still have peace in the midst of confusion

And even though I know my life has purpose  
I find myself down and out feeling worthless and  
defenceless  
I can't stand their eyes against me  
But I still call no man my enemy  
Competition is none no competitors  
Matthew 5:44's got me praying for predators  
Turnin' cheeks on the regular  
So throw your dart and chances are you'll hit the heart  
But never take me apart because I'm founded in  
Yeshua...  
So who can be against me?  
That's what I thought, nobody  
Because

[CHORUS]  
Toby Mac and I'm here to drop this on you  
I got a fresh point of view  
John Reuben let me tell you what I'm trying to say  
The world can't take these smiles away  
Sunny days, oh they may be grey  
And by the way some people just love to hate

But I got love for them all  
So much love for them all

God is Love with a capital L  
And it's the last thing he told us through Christ as well  
You gotta love God with all your heart  
And love your brother like you love yourself  
Love your brother like you love yourself  
And for you John that's a whole lot of love

[CHORUS]

Love huh, no one's above it or below it  
Love's right, they think they're tough cause they don't  
show it  
Love huh, we make it plain to see that we got love  
Even if they haven't for we

[CHORUS]
