Tell me where it's hurting  
Are you burning?  
Running just to catch your breath  
And going nowhere  
It's getting old when you got nothing left  
Well it ain't over, 'till it's over  
I told you since the day we met  
So let me be the voice through all the noise  
Wherever I gotta be  
I'll be for you

Whatever you need for me  
To see it through  
Everyone of us has stumbled  
Everybody's humbled  
We hit the ground and our life's crumbled

Wherever I gotta be  
I'll be for you  
I'm for you  
If you never knew  
If you never knew  
I'm for you  
You know it's true

I know the feeling  
I know it's real when the drama's all in your face  
I see a mountain  
I here a promise-It's never more than we can take  
Well it ain't over  
'Till it's over  
We can learn from our mistakes  
So let me be the voice through all the noise

Wherever I gotta be  
I'll be for you  
Whatever you need for me  
To see it through

Everyone of us will fall  
Have our backs against the wall  
And everyone shows a need to be loved

You've always been for me  
Now I will be for you  
That's just what it means to be love

Wherever I gotta be  
I'll be for you  
Whenever you need to me  
To see it through  
Wherever I gotta be  
I'll be for you  
I'm for you  
I'm for you

Wherever I gotta be  
I'll be for you  
Whatever you need for me  
To see it through  
Everyone of us has stumbled  
Everybody's humbled  
We hit the ground and our life's crumbled

I'm for you  
If you never  
If you never  
I'm for you  
You know it's true

Like I'm for you  
Like you're for me  
Like you're for me  
Like I'm for you

I'm for you  
Like you're for me  
Like I'm for you

I'm for you  
Like you're for me  
Like you're for me  
Like I'm for you

I'm for you  
Like you're for me  
Like I'm you
