[Intro: Morpheus (Neo) "The Matrix" sample] What is the Matrix? Control The Matrix is a computer-generated dream world Built to keep us under control in order to change a human being into this... (No, I don't believe it, it's not possible) I didn't say it would be easy, Neo I just said it would be the truth [G-Clef Da Mad Komposa] Sent to shut down... sent to shut down... Sent to shut down ya discordant passion In your temple I'm Jesus, breaking, smashing Tahuti in God's house, once again With the Templar Sword, pointed at your chin Soul Kid Klik was all Masons The only true chocolate pecan and vanilla interfacing On a path to perfection, but we didn't see The industry was lurkin' at the intersection I don't trust Mel Gibson, just like I don't support bullshit, I hit him with a bullwhip Make his ass feel the passion, cuz stealin' souls is a fatal infraction Hmm, I see you got alot of evil people here On the forgotten planet, enough, I've had it Joe Aton, bout to break ya world Look at ya life nigga, what if God was a girl? [Hook: Jakineko] Maybe your mind can't take it... Maybe I'll have to break it in... Once you realize you have no choice You must submit... [Chorus 2X: Archangel Metatron (G-Clef Da Mad Komposa)] Here comes the angel of death, time to resurrect We represent, the other side of mirrors, you fear us (But can't hear us, deaf, dumb & blind Trapped in the matrix of your mind) [Archangel Metatron] Yo, we locked, in this three dimensional box My body heat provides the energy for selfish plots Melted clocks, backdrop my landscape New York in the vain, mastered this concrete maze But yo, I'm spinning in the square's circle I don't care... I'll murk you Fuck your version of sin and virtue You wrong nigga, word is bond, nigga Lost Secret start a war, nigga Dethrone your Pope, reap and sow my hope We not the ones that you want to provoke Now... we buck at your Soul, your Spirit, your Essence You like a tree that fell in nobody's presence Non-existent, we spit new scriptures That start religions in another solar system All praises due... Archangel Metatron Don't give a fuck about persuading you [Chorus 2X] [G-Clef Da Mad Komposa] We make you know you got no control From

the flesh to the mind to the spirit to the soul Many wan  
test but many gon' die Melchizedek protect ya neck,  
don't ask why Too many questions for now you just  
listen My mercury flows so fast you keep missin' A  
moving target at a speed that's outta sight Cuz when I  
spark the mic, you see light Mythical missionary, I'm  
seen on ya planet A friendly stranger, apocalypse  
avenger Revealer of languages, reliever of anguishes  
For five thosuand years been wrapped up in bandages  
But I'm back, to attack the wack Spooky like a seance,  
crack you up like crayons Wack emcees are the devil,  
peace to all my true brothers And I'll see you on the  
level [Archangel Metatron] I read the Torah, read the  
Koran Now I live life for Gomar Oz Dubar No time for  
praying and hoping I walk the streets wit no emotion  
I'm focused, on my inner visions and dreams Got beef  
wit us, I'm up in heaven, but we still in Queens For real,  
we mean... strike wit lightning Ghost get frightened by  
this pen that I write with We original don't need to  
mimic y'all Bullshit I slice.. wit a Shriner's scimitar It's  
getting serious in the world today "It's all good", "holla  
back", that's just what y'all say But your truth  
contradicts the fact You may get airplay, but that shit is  
wack Who do you believe and who do you trust?  
Presenting Lost Secret, and yea we know what's up  
[Hook] [Outro: Jakineko] Melchizedek, Metatron, Lost
