Oh, my ex-wife is gonna be my next wife
We're gonna try it one more time
See if we can do it right this time
Yes, my ex-wife is gonna be my next wife
We're gonna give it one more shot
Give it all that we got for the rest of our lives.

We didn't do too bad the first time around
But somehow we just let our love lines break down
So we tried it apart and the one thing we found
It's better together.

So my ex-wife is gonna be my next wife
We're gonna try it one more time
See if we can do it right this time
Yes, my ex-wife is gonna be my next wife
We're gonna give it one more shot
Give it all that we got for the rest of our lives.

They say love gets better when you try it again
And we're both determined that losers can't win
And we know where we're going cause we know where
we've been
Together forever.

Yes my ex-wife is gonna be my next wife
We're gonna try it one more time
See if we can do it right this time
Yes, my ex-wife is gonna be my next wife
We're gonna give it one more shot
Give it all that we got for the rest of our lives.

Yeah, we're gonna give it our best shot
Give it all that we got for the rest of our lives...
