(Tommy Collins - Justin Tubb)

If the time ever come that I don't love you right
Pull the covers over me
If I'm making your days but not making your nights
Pull the covers over me.

If I can't turn you on just pretend that I am gone
And pull the covers over me
Fluff the pillow neath my head and tell your friends
good love is dead
And pull the covers over me.

Call 'em up tougher men but tell 'em how good it's
been
And that you sure hate to set me free
But if I can't cut the ice then just tell 'em it's been nice
And pull the covers over me.

Pull the covers over me over me
Pull the covers over me
If I can't cut the ice then just tell 'em it's been nice
And pull the covers over me.

--- Instrumental ---

Call 'em up tougher men but tell 'em how good it's
been...
And that you sure hate to set me free
But if I can't cut the ice then just tell 'em it's been nice
And pull the covers over me.

If I can't cut the ice then just tell 'em it's been nice
And pull the covers over me...
