(Justin Tubb)

She's a sad and lonely Texas dance hall girl.

She's the first one on the dance floor when the fiddles
start to play

She's the first to buy the band around the drink

She's just out to have a good time dances every set
they play

And she don't care what anybody thinks.

She's a sad and lonely Texas dance hall girl

Who's just tryin' to bring a smile to this old world

But behind the smile her broken heart lives in another
world

She's a sad and lonely Texas dance hall girl.

No one really knows the story that there's an old love
on her mind

'Cause the certain song brings teardrops to her eyes

But they only dare a minute then she's laughing one
more time

With what little happiness a teardrop by.
