(Justin Tubb)

Packed my big grey suitcase here I go again
Take care of things I'll call you when I can
And thanks for understanding I know how hard it's
been
I only hope you know I understand.

Lovin' this old travelin' singin' man
It takes a special woman and that's just what you been
I only hope you know I understand
You sacrifice you've made dear time and time again
Just to love this travelin' singin' man.

This crazy life I've chosen I know is hard on you
Don't know how you can take it sometimes but thank
God you do.

'Cause boy it sure gets lonesome movin' town to town
Another show another one night stand
And all that keeps me goin' it's knowin' that you're
there
Waitin' for your travelin' singin' man.

Lovin' this old travelin' singin' man
It takes a special woman and that's just what you been
I only hope you know I understand
You sacrifice you've made dear time and time again
Just to love this travelin' singin' man...
