(Justin Tubb)

If you've got to hurt someone who really loves you  
And you're looking for a way that just can't miss  
If you've got to make a fool of one who needs you  
Then you'll never get a better chance than this.

For I love you so much it would just kill me  
To find I'm just a number on your list  
If your mind's made up to make somebody lonely  
Then you'll never get a better chance than this.

--- Instrumental ---

If you can't be happy till somebody's crying  
All you've got to do is kiss that goodbye kiss  
And here I am you might as well start trying  
'Cause you'll never get a better chance than this.

For I love you so much it would just kill me  
To find I'm just a number on your list  
If your mind's made up to make somebody lonely  
Then you'll never get a better chance than this.

No, you'll never get a better chance than this...
