Mmm, whatcha say
Mmm, that only meant well?
Well, of course you did
Mmm, whatcha say
Mmm, that it's all for the best?
Of course it is
Mmm, whatcha say
Ooh that it's what we need
You decided this (You)
Whatcha say
Ooh, what did she say?

I'm caught up in a maze
Nowhere to turn nothing to say
Look in your eyes it ain't the same
Your body's here but your mind ain't
There's some place you rather be
A former piece of mind I need some clarity
I sorta knew, I saw the clues
(What did she say?)
It was written all over you
Gravity's just now saying this
Just one knock and you let her in
I hope your life knows much better than
(What did she say?)
What did she say to make you (make you)

(Whatcha say)
Tell me what did she say to make you take your love
away (Whatcha say)
Tell me what did she do to make your feelings change
(Whatcha say)
Tell me what did she get to get in to your head, oh
(Whatcha say)
Ooh, what did she say? Doesn't matter anyway

It was so strange how you rushed
In to her arms and gave up on us
When my love was uncut
The purest form, I would die for us
To be with her, be gone forever

With your body and soul
Cause now you've chosen her
How could you trade the love I gave

(What did she say?)
Tell me what she say
Tell me what did she say to make you take your love
away (Whatcha say)
Tell me what did she do to make your feelings change
(Whatcha say)
Tell me what did she get to get in to your head, oh
(Whatcha say)
Ooh, what did she say? Doesn't matter anyway

What did she say to make you think that I was
cheating?
(What did she say)
It must have been some mistake to have you leaving
I gotta know, I need to know what was the reason
(What did she say?)
How about I just let go
What did she say to make you think that I was
cheating?
(What did she say)
It must have been some mistake to have you leaving
(Instead of trying to let you know)
I gotta know, I need to know what was the reason
(What did she say?)

What did she say to make you (make you) (Whatcha
say)
Tell me what did she say to make you take your love
away (Whatcha say)
Tell me what did she do to make your feelings change
(Whatcha say)
Tell me what did she get to get in to your head
(ohhhhhh) (Whatcha say)
Ooh, what did she say? Doesn't matter anyway

What did she say?
Doesn't matter anyway (Doesn't matter anyway)
What did she say?
Doesn't matter anyway (Doesn't matter anyway)
What did she say?
Doesn't matter anyway (Doesn't matter anyway)
