Taken
Laughed and ignored
What I do
I do for free
Blessed
The blind man is scorned
Cast from light
In a frozen sea
Beaten
Down to the ground
Lust in head
Strung up from a tree
Burned out
Without a sound
Can't move on
He can't be free

God
Got no life trapped in a downward spiral
Pushing back
go no place to hide
Honest man
He's condemned to die
Lost all hope
Slave deep down inside

Alive
Bent back by the wind
Roots so strong
He cannot defend
Passion
His passion is killed
Broke his bones
Til they got their fill
Desire
To be the one
Who breaks out
Heads straight for the sun
Raptor
Flies high in the sky
Left for dead

It pulls out his eye

God

Got no life trapped in a downward spiral

Pushing back

go no place to hide

Honest man

He's condemned to die

Lost all hope

Slave deep down inside

Sister

Drains blood from his veins

White and pale

A man with no name

Actor

With lines that are read

Hides his face

He'd rather be dead

Answer

The answer to bliss

Breathe no more

Death wish with a kiss

Hostile

This pain from within

Chains hold down

This demon within

Splinter

Tapped into his mind

Painful song

A song of delight

Jester

The punch of a joke

Silent sorrow

Drifts into the smoke

Submission

An end to a means

My time calls

An end to a dream

Blackened

Right down to the soul

The pleasure

A lifetime of gold
