Rape my country again. Over and over and over again.
NO. I got a hand. I can use it. You could be the one.
Runnin from my gun. Runnin from the bad man. Runnin
from the gun man. Running with your life at stake.
Taken. Broken. Homeless. Heartless. I'm not afraid. I
got my guns. Now you're the one. Runnin from my
guns. Runnin from the bad man. Runnin from the gun
man. Runnin now your lifes at stake. Hows it feel to be
my target? I won't miss. I totally promise. When you
shoot at me don't be afraid. Justice will be done. Victory
will be won. Life will be good again. Wipe away the
blood. Shake away the pain. Live your fucking life.
Thats a good philosophy. Get yourself a brain. Break
the fucking chain. Put the knife away. Be an honest man
again. Mean what you say. Say what you mean. Try
some self respect my freind. Paint that black word.
Tear down that church. Look within. Try to find. Fly
away. Heart and mind. Look so deep. Deep inside. Fade
away. Hear t and mind. Cross the sea. Far away. Cast
the spell this I say. Count on me. I'm your glock. Rack
the slide. Gonna rock. Better watch what you say. Better
watch what you do. Better learn how to live. Get ready
to move. Can you change brand new name in a rage
violent race.
