It's about time  
We had a talk  
About everything in general  
Why I feel I'm drifting away from you

How can I watch myself get older in the mirror?  
And not care about what's going on  
You're fading into the past like our perfect future  
It won't be long until it's over  
You know I'm not the one you want

Right from the start  
Knew I wouldn't change you  
You changed on your own

No, I'm not pretending  
When I say our love is ending  
But I could never gladly let you go

And if I laugh  
The day it wouldn't change you  
You'd still play the part  
Of the perfect girl who was always there  
Dumped by the boy who didn't care  
For your non existent broken heart

I'll be the creep on your back  
I'll be the thorn in your side  
I'll be whatever love becomes when it dies  
Yeah

So here I am  
Seems I'm always waiting  
Soon I will catch on  
I'll be the one who plays your games  
I am the one who has to change  
Because everything I do is wrong

You want to pass your time with someone else  
When I'll pretend that I don't care  
I'll be searching everywhere for

Someone else like you  
Like you
