(1, 2, 3, 4)

Let's go for a ride
Tonight, you and I
We can make it seem like it's old times
You can smoke and drive
I'll sit, stare outside
Wondering what's wrong with us tonight

My heart
Is worn from the calm after the storm
Thanks to the fact that I want you back

I finally realize
There's nothing I can do about time
Got a million things to do
I can't miss you

Your smoke fills the room
Like conversation use to
Cruising by the places we once knew
In friendship and in love
Old photographs remind me of
Wondering if I could ever get enough

My heart
Is worn from the calm after the storm
Thanks to the fact that I want you back

I finally realize
There's nothing I can do about time
Got a million things to do
I can't miss you

Here's my way to tie off the ends
A song as sweet as revenge
An unmistakable melody
It will outlast regrets
And live in all of my friends
I hope you never forget everything
Everything

Hear this song
The one about what went wrong
You can hum the tune
I'll sing along
