

JV All*Stars, The "Let's Get Drunk And Tread Water"

Visit "[Let's Get Drunk And Tread Water](#)" on MotoLyrics.com

He said
"I don't feel welcome
In this town
I'm surprised you're even
Listening now"

I said
"I don't blame you one bit"
There have been many times
I've almost quit my life

On the north side of town (north side of town)
To be the ghost
Nobody asks about
Isn't that right Brian?
It's good to move away
When the home you know
Doesn't know your name
Your name

When did it get too hard
To make the best of everything? (make the best of
everything)
When all your problems
Live in this town
If it's wrong to say
I wish you would stay (wish you would stay)
Good luck in Boston
I'll see you around
(Yeah!)

I know what's worse than
Being alone
It's when you ask just how
What happened to all my friends?
In September they'll be gone
And I'll start again, again

When did it get too hard
To make the best of everything? (make the best of
everything)

When all your problems
Live in this town
If it's wrong to say
I wish you would stay (wish you would stay)
Good luck in Boston
I'll see you around

I heard there's opportunity in Chicago
And I never liked this town
Yeah, all the cool bands are on the East Coast
Why aren't we all there now? (why aren't we all there
now)

She broke every heart in Omaha
And my hometown as well (my hometown as well)
She found a million reasons
She should be somewhere else

I never liked the weather here (never liked the weather
here)
And I'm too shallow
To appreciate my friends

And see through the exterior
(Never liked the weather here)
And see through the exterior
(Never liked the weather here)
And see through the exterior
(Never liked the weather here)
And see through the exterior
(Never liked the weather here)
And see through the exterior
(Never liked the weather here)
And see through the exterior
(Never liked the weather here)
And see through the exterior
(Never liked the weather here)
And see through the exterior
(Never liked the weather here)
And see through the exterior
(Never liked the weather here)
And see through the exterior
(Never liked the weather here)
And see through the exterior
(Never liked the weather here)
And see through the exterior
(Never liked the weather here)
And see through the exterior
(Never liked the weather here)
And see through the exterior
(Never liked the weather here)
And see through the exterior
(Never liked the weather here)
And see through the exterior
(Never liked the weather here)
