When the night is long
And the dreams you've been holdin' seem all but gone
When you're tired, cold and weak
And you can't stop your mind, no you can't even
sleep.....
I know that you're worried
And you're in such a hurry
But you know you're never alone
You're never alone.....
So wherever you go let my love shine a light
Down every road be it left or right
May it always get you through
These are the things, all the things I wish for you.....
In my eyes, in my heart
Oh, you shine like a diamond brighter than the stars
The whole world waits for you
Just be sure to find joy in whatever you choose.....
And don't look so worried, darlin'
There's no need to hurry
Always know, I believe in you
I believe in you....
And wherever you go let my love shine a light
Down every road be it left or right
May it always get you through
These are the things, I wish, I wish that
Music and laughter would fill your days.....
And whatever you're after is on it's way
To make all your dreams come true
These are the things, all the things I wish for you.....
Just wanna see you happy, little one
I wanna see you smile that smile.....
Go on and spread your little wings-fly, fly, fly.....
And wherever you go let my love shine a light
Down every road be it left or right
May it always get you through
These are the things, I wish, I wish that.....
Music and laughter would fill your days
And whatever you're after is on it's way
To make all your dreams come true
These are the things, all the things I wish for you.....
Oh, and may all your dreams come true

These are the things, all the things I wish for you.....
