Once there were stars out in the night
They never seemed to shine
And love was there for every heart
Seemed every heart but mine
That's how it seemed to be
Then darlin' you changed everything
Just when I thought I'd given up
Out walked loneliness
In walked love
In walked you
In walked all my dreams comin' true
(In walked love)
Right through my door
I saw your face and I knew
All I'd looked for I had found in you
I found the one that I'd been dreamin' of
In walked love
I threw my heart into the wind
I'd thrown all hope away
That love would never let me in
And then you came my way
Just like a ray of light
That breaks through the long cold night
You brought in a brand new morning sun
Out walked loneliness
In walked love
In walked you
In walked all my dreams comin' true
(In walked love)
Right through my door
I saw your face and I knew
all I'd looked for I had found in you
I found the one that I'd been dreamin' of
In walked love
Out walked loneliness
In walked love
In walked you
In walked all my dreams comin' true
(In walked love)
Right through my door
I saw your face and I knew

All I'd looked for I had found in you
I found the one that I'd been dreamin' of
In walked love
