We are sending out  
A love message to the world  
A love message to the world  
Can you hear the message of love ?

[Scooter]  
Peace ! Save your life ! Love message !

[Fun Factory]  
Listen up cause it's about time  
Love and sex is still no crime  
A big disease with a little name  
Is serious and it's no game  
Everybody needs information  
Here - there in every nation  
Go out, have fun, but live and learn  
Protect yourself that's our concern

[Masterboy]  
Protection can save your life  
So free your mind, enjoy the drive  
Keep control, don't drive to fast  
Save your soul and make it last  
HIV is my worry  
You rather be save then sorry  
Awareness of what's going on  
Do the right thing: put it on !

[Worlds Apart]  
Love Message

Love message - Can you feel it?  
Love message - Can you see it?  
Love message - Can you hear it?  
Love message, can you hear the message of love

[Scooter]  
Love message

[E-Rotic]  
Love and sex is all around

Don't forget it, if you found  
Someone for satisfaction  
Do think first and use protection  
Sex, sex, sex is fun but don't be silly  
Just make sure, you use a billy boy  
Don't burn your hands  
Trust my word cause we are friends

[Mr.President]

Friends are friends and what we are for  
Is to keep everybody comin' back for more  
Love without taking a chance  
Don't risk your life it's in your hands  
Everybody should take stand  
Spread the words over the land  
From down under, from above  
Here the message of love

[Worlds Apart]

Love Message

Love message - Can you feel it?  
Love message - Can you see it?  
Love message - Can you hear it?  
Love message, can you hear the message of love

[Scooter]
