"Mighty Love"

Once there was a boy and girl
Boy said "I love you so"
Girl said "I'll never leave you"
They grew older and left each other
'Cause that's the way love goes

Then there's a time
Seems like you'll never find
Someone willing to love you
Keep on looking you'll soon discover

A mighty love
Can sometimes make you weep and moan
Said a mighty love
You sit all day by the telephone
'Cause you're all alone
You need a mighty love

Some say that you're sure to find
True love and piece of mind
At the end of the rainbow
There's no sign in the sky to follow
'Cause that's the way love goes
And so there's a rhyme
That says life will soon be fine
Love is just what you make it
Keep on loving, you'll soon discover

A mighty love
Can sometimes make a weak man strong
A mighty love
Can sometimes make a rich man weep
And knock him off his feet
To have a mighty love
