When you say goodbye
To the love that we knew
This you can be sure of

I will torch on for you
I will carry my torch for you

When you break somebody's heart
Nothing much left to do
Howsoever sadly

I will torch on for you
I will carry my torch for you

Somewhere in the back of my heart it's there
And every day it finds me then reminds me

Somewhere in the back of my heart it's there
And every day it finds me then reminds me

I will bear my cross
I will bear your cross too
I will pine forever

I will torch on for you
I will carry my torch for you
