so you're going drinking tonight
it's party time
gonna turn bad to maybe

so you're gonna paint the town red
it's party time
gonna turn bad to maybe

blackout in the red room
blackout in the red room

so you say you can't remember
it's party time
so you say you can't remember

so you woke up blind
it's party time
so you say you can't remember

blackout in the red room
blackout in the red room
blackout in the red room
