don't you worry, don't feel no pain  
just wrap your lips around her  
don't you fret none, don't feel no shame  
we're gonna roll 'er up, mary jane

she's my baby rocket stone her eyes are green  
she smells like candy and her number is 13  
they say she's growin' wild, wild like a weed  
they say she's loco crazy  
there's somethin' I best tell you  
I'm loco crazy too

mary jane, I want you; mary jane, I need you

and I heard you were lookin' for some action  
and I think I got just what you need  
and we were sittin' in a circle  
passin' round and round

mary jane, I want you  
mary jane, I need you

I found my connection down at the beach  
and my heart started racin' 'cause she's at arm's reach  
I don't know why I feel this way 'bout you but I do

I am hallucinating, this world, fine mess we're in  
I am imaginatin', come to me mary, mary jane

mary jane, I want you; mary jane, I need you  
mary jane, I want you; mary jane, I need you  
mary jane, I want you; mary jane, I need you

green buds inside you, green buds inside you  
green buds inside you, green buds inside you
