gonna get a little laid
fuck off!
no sticks and stones
gonna get it right

some people think I'm going crazy
some people think I'm mad mad mad
some people think I'm gonna hurt somebody
some people think I'm gonna hurt myself

put your straightjacket on
put your straight straightjacket on
put your straightjacket on
put your straight straightjacket straight straightjacket
on

I think I'm gonna go out tonight
I think I'm gonna get into a fight
I think I'm gonna knock somebody's head off
I think I might murder somebody yeah yeah
put your straightjacket on
put your straight straightjacket on
put your straight straightjacket straight straightjacket
on
