I can't dance, but I feel like dancin'  
Not with anyone, only you  
You're as true as love can be  
You're all that matters to me

Out in the rain, lost as I was  
I said "You think it'll ever stop"  
You said "It always does"  
And you were right, look and see  
You're all that matters to me

[Chorus]  
All that matters, all that matters  
You're all that matters to me  
I don't care if I know  
Where we come from or where we'll go  
You're all that matters to me

You hear that song, that song is our song  
And so is the next song  
I'm as certain as I'm ever going to be  
I don't care about this crowd  
Let 'em laugh I'm not proud  
Nor am I ashamed for anyone to see

[Chorus]
