Thanks again for everything
For everything I know
For everything that I have seen
Between these places that I go

Down that highway, up that street
In your love I know I'll never lose my feet

In all these years that I have moved around
You never let me down
You never let me down

Thanks again for all you do
To see us through this mess
Without you these skies of blue
They cloud up with loneliness

Up that mountain, down that stream
Through that nightmare and into that dream

In all these tragic wonders I have found
You never let me down
You never let me down, no, no
You never let me down, no

When I think of who we are
And who we'll be behind those stars
I say oh thank God

You know lately I've been feeling kinda lonely
Everybody seems so afraid
I clench my teeth together so tightly sometimes
That I forget that promise you made

Knock and you will open, seek and I'll find
Ask and you will answer in your own perfect time

In all these years that I've been losing ground
In all these tragic wonders I have found
In all these years that I have moved around
You never let me down

You never let me down, oh no
You never let me down, oh
You never let me down

You never let me down
You never let me down
You never let me
You never let me down, no
