Maybe, maybe I've gone too far with this, deserving?
Maybe I, I've been waiting too long, just to hear you say
"Lately I've been trying", but you didn't seem to try at
all
Lately I've been trying so hard to be, what you want me
to be

So, tell me tell me, with what you know.
How we end this story all depends on you

Lately, lately I've wondered how to be around
everything.
Lately I, I've been so knocked down into something
new.
"lately I've been trying", but you never seem to try at
all.
Lately I've been trying so hard to be, what you want me
to be

So, tell me tell me, with what you know.
How we end this story all depends on you
Now that I can see it all relies on (All relies on you)
How we end this story all depends on you
