KaecyAnn Alston: Kiss I've Never Knew

You brush against my arm all day
You take a gaze in the hallway
You check your throat to see it's clear
Everytime that you come near
I think you have something on your chest
Hurry up so I can rest
I want to give it a try
But everytime that you come by
You get goosebumps from being shy
You think your not the best guy
Just relax and be yourself
And I'll be myself
Just because you still haven't kissed me
Doesn't mean that I can't see
That your special in every way

I can't believe I have to say
The kiss I've never knew
Always gets my falling for you
The kiss I've never felt
Ya, It makes me melt
Ya. It wants to make me stay with you
And Yes, I'll do

Atleast passed me a fragrant note
That has you favorite quote
If it you want to be secretive than I won't tell
Not even my best that knows me well
You've been looking at me blancklessly
I don't know where is th key
Just want to unlock your every thought
You're striping me of every mind I've got
You'll never know if you'll never man-up
Go for it if you think your plans up
Please understand I'll a nice menina
I can never just say blah blah blah
I'm not heartless I've got a soul
It's rather warm but never cold
Your special in every way

I can't believe I have to say
The kiss I've never knew
Always gets my falling for you
The kiss I've never felt
Ya, It makes me melt
Ya. It wants to make me stay with you
And Yes, I'll do

I can't believe I have to say
The kiss I've never knew
Always gets my falling for you
The kiss I've never felt
Ya, It makes me melt
Ya. It wants to make me stay with you
And Yes, I'll do
