"So Excited"

Visit "[So Excited](#)" on MotoLyrics.com

There, there's a fire

That's been burning for the longest time

There's a lover

Who's been yearning to become alive

And now I, I stand confused

Cause there is something about you

I just cannot explain

Now that you've, you've got me started

Cause my love is running warm

And its chasing you inside the night

Chorus:

I see you coming closer

I feel holding tight

And you got me so excited now

You've got me so excited

So excited when you touch me

So excited when you hold me tight

So excited when your heart beats

I'm so excited when you love me through the night

There's, there's a feeling

I've been feeling when you're by my side

There's a hunger
That's been eating me all up inside
And now I, I stand accused
And there is no use pretending
Cause our love's never-ending
Now that I've opened my heart
Baby this time it's for real
And there's a chance I might feel you in the night

Chorus (1x)

So excited when you touch me
So excited when you hold me tight
So excited when your heart beats
I'm so excited when you love me through the night
Keep on loving me
Keep on, keep on loving me
You've got me so excited

Chorus (1x)

Keep on loving me
Keep on, keep on loving me
