(music)

im tired of being what u want me to be, I am myself, u should be to.

only if I were better than her, you would probally fall for me instead.

so i've been thinking alot more, and maby we should go back in time

and!....(chorus).....I would become much better than her, and!...I

would become much smarter than her, and!...I would become much

funner than her, but! you would never notice...(out of chorus)

(music)

Now that you understand me, maby we can go out, but only if you

promise me that, you will not hate.....you will appreciate!!....

(chorus)

so now I understand, that you can not love, you can not like, but you

can only hate. (say 3x's)
