Look back,
(shout out, shout it)
There's someone close behind
It's a face that I remember
(Come out, come out)
In the air, there's a feeling that I know
Speaks to me of better times

Come out, come out
Never say bust
If you don't start to move
You'll start to rust

Shot down, shot down
I know you'll rise up...again
Just like the phoenix
From the dust

CHORUS:

What ever happened to the bright-eyed one
What ever happened to the dreams we'd hold
What ever happened to the light on beacon hill
I know it's up there burning still

Shout out, shout out
I know you could melt these hearts
And where's the face we all remember
Come out, come out
And put lightening in these veins
Throw away the mask of anger

CHORUS:

What ever happened to the bright-eyed one
What ever happened to the dreams we'd hold
What ever happened to the light on beacon hill
I know it's up there burning still
It's burning still
(repeat chorus twice)
