Koi janakute ai yo Anata wo omou dake de Setsunai  
Aishiteru Dareyori mo Aishiteru I love you Kokoro kara  
(aiyai-aiyai)

English translation

It's not a crush, it's love. Just by thinking about you, I

get lonely.  
The colors of everyday become vivid.  
Believing in the divination that someday we would  
meet,  
I decorated myself with a stylish scarf.  
The sky is so blue, and the little birds chirp.  
That gives me the premonition that something is  
starting. This  
feeling is different from "like".  
Knowing that is the first step up the stairway to  
adulthood.  
I throw off the me of yesterday  
And I have a new birthday in the not-yet-known  
world. It's  
not a crush, it's love. I don't want to hand it over to  
anyone.  
I want to keep you to myself, and my teardrops  
overflow.  
It's not a crush, it's love. You only are my everything.  
The sounds of everyday shine. You're necessary to me  
like air to breathe.  
The smile you showed me suddenly is precious.  
The wind envelops us gently.  
I embrace the expectation of a miracle happening.  
A feeling hotter than "like"  
Makes my heart beat so much I can't hold it back.  
An impatient love already goes on to the next stage  
And connects to tomorrow to make a new anniversary.  
"It's not a crush, it's love. What I want to reach to you  
more is  
This endless feeling I embrace. I want to gaze at you."  
It's not a crush, it's love. Just by thinking about you, I  
get lonely.  
The colors of everyday become vivid.  
It's not a crush, it's love. I don't want to hand it over to  
anyone.  
I want to keep you to myself, and my teardrops  
overflow.  
It's not a crush, it's love. You only are my everything.  
The sounds of everyday shine.  
It's not a crush, it's love. I absolutely don't want to lose  
The person I've become up till now and this destiny  
that has something different about it.  
It's not a crush, it's love. Just by thinking about you, I  
get lonely.  
I love you. I love you more than anyone. I love you from  
my heart.  
(Aiyai-Aiyai)
