"Black Heart Rodeo"

She said "feed me feathers"
'Cause I long to smile
I have fallen far from grace
And grace was built by lies
And through this confusion
You fall on your soul
Call a name as you hope to be saved but
This is not your God
Its time to let go
Give up the black heart rodeo and
Turn in your star
Youre not who you think you are
She said "feed me flowers"
So I glow in the sun
Everyday I learn what to say and
What not to have done
And I taste of ashes
Of a fire long since gone
I want be around to see
Who lost and then who won
Its time to let go
Give up the black heart rodeo and
Turn in your star
Youre not who you think you are
Youre not who you think you are
Let go
Let go
Let go
