Somebody wake me up
The dream is growing cold
And the night is all we have
Left to hold

Somebody sail this ship
Navigate this crowd
For what I once saw as land
I see as cloud

But I am stronger than you
And I am braver than you
And I will still be here
When the dust has cleared

Sometimes nothing is
The better hand
And you throw it all for this
I understand

But I am stronger than you
And I am braver than you
And I will still be here
When the dust has cleared will you?
Will you, will you, will you?

And I will still be here
When the dust has cleared
I will still be here
When the dust has cleared
Will you?

You will never get close to me
You will never get close to me
This is who we are
This is who we are
You will never get close to me
This is who we are
You will never get close to me
Who we are
