Hold my hand lets chase the sun
We both know something's begun
Nothing feels that real without you
Wanna learn so much about you

Shining star I've seen your face
Everything falls into place
Nothing else seems to matter
You bring me to life

Feels so lonely
Won't you show me
Where I need to be
You bring me to life

Feels like the raindrops on my skin
You reach me somewhere deep within
You make my body come alive
You bring me to life

I whisper things you never knew
I can't believe that tonight I'm here with you
You make my body come alive
You bring me to life

See it burning in my eyes
Don't want words, Don't want no lies
They say more than what is spoken
Promises always get broken

Feels so lonely
Won't you show me
Where I need to be
You bring me to life

Feels like the raindrops on my skin
You reach me somewhere deep within
You make my body come alive
You bring me to life

I whisper things you never knew

I can't believe that tonight I'm here with you
You make my body come alive
You bring me to life
