History's not made  
By presidents or popes  
Or kings or queens or generals  
Or CIA kingpins runnin' dope  
History's not made  
By nine robed men  
Or billionaires or bankers  
It's not made by them

Black Spartacus Heart Attack Machine [x3]

Might throw a little money 'round  
Wonderin' who can be bought  
Some might find they're weaker  
Some stronger than they thought  
Well I'll stand or fall right here  
In my country, in my home  
I used to think I was alone  
Well, I ain't alone no more

Black Spartacus Heart Attack Machine [x3]

Hollow box  
Steel string  
Union made  
Let freedom ring

Me and my people are hungry  
Me and my people are through  
Me and my people are ready  
Me and my people are just about due  
I'm a massive air strike on a beautiful night  
Yeah, this is my song I'm singin'  
Somebody better start countin'  
We're comin' out, we're comin' out swinging.
