I stood upon the platform
And waited for the train
The first stop was redemption
And the whistle called my name

God help us all
God help us all
God help us all

God help us all, we're sufferin'
God help us all, we're lost
God help us all, we're wanderin'
With no future and no hope
God help us all, we're sick
Of cryin' all these tears
God help us all
'Cause we are all that we feared

I stood among the faithful
And raised my banner high
I held my breath with wonder
In the cold October night

God help us all
God help us all
God help us all

God help us all, we're wanderin'
God help us all, we're lost
God help us all, we're sufferin'
With no future and no hope
God help us all, we're sick
Of cryin' all these tears
God help us all
'Cause we are all that we feared

They showed me on the TV
Above the ivy and the brick
My face glowed with salvation
But the light was playing tricks

And in the tomb like silence
I walked with my head down
Another broken spirit
In a broken-hearted town

God help us all
God help us all
God help us all

God help us all, we're sufferin'
God help us all, we're lost
God help us all, we're wanderin'
With no future and no hope
God help us all, we're sick
Of cryin' all these tears
God help us all
'Cause we are all that we feared.
