she want him, want him not to go  
he said i've, i've got to go  
she whispered i, i love you so  
he said i, i've got to go

night falls on the river valley  
night falls on the mines and fields  
night falls on the  
night falls

in the next time there's trouble  
needs  
there's dynamite under the porch  
me and my four kids are hungry  
a man's yelling thru the scream door

night falls on the river valley  
night falls on the mines and fields  
night falls on the  
night falls

only kin in the morning  
shoulder to shoulder  
end to end  
you don't have to speak  
you just have to stand

stiff siting down there on the bridge  
local three...  
a black and white picture of the common of the law  
the dam is broken the river come

night falls on the river valley  
night falls on the mines and fields  
night falls on the just a non  
night falls

she want him, want him not to go  
he said i've, i've got to go  
she whispered i, i love you so

night falls

night falls
