Girl, whose that dude you wit?  
could of swore I saw em push up on your friend  
Girl, who that dude you wit?  
Neva see him buy you nothing, always spending your  
ends

He don't ice your wrists, don't take no trips  
Don't spend no time, he don't rock ya spine

But I'll ice your wrists, we'll take the trips  
I'll spend the time, girl I'll hit ya right

Now it's my turn, forget about ya man  
Girl you know you can do so much better than him so  
Might as well let em know, you bout to let em go  
It's my turn, it's my turn  
It's my turn, girl I'm up to bat  
You'll be askin whose him when I hit that back  
Girl what you need to do, it's let that loser lose  
It's my turn, it's my turn yeah

He don't hold ya hand, not proud to be ya man  
He don't see the dime, know that you're gon' be mine  
But I'll grab ya hand, proud to be ya man  
Never tell you lies, you's a star in my eyes
