I am envious of the moonshine  
I am jealous of the sun's rays  
Oh sun, the sun above  
You are the symbol of life  
Moon, the fuul moon above  
Your light in this darkening world  
Is the eye for peace and tranquility  
Water, water  
You are the blood that runs through my veins  
You are the blood that runs through my veins  
You are the blood that runs through my veins

There are more and more conflicts  
Even without the threat of nuclear game  
Civilized economy and technology  
Did not bear the "green peace" movement  
Let us sing for the world of green and peace  
Let us sing for the rejuvenation of the universe  
constitution  
Let's echo the world  
Let's start our revolution for green and peace  
People should wake up  
People should wake up  
Sing.... sing the song for the world of green and peace

Human civilization  
Witness how greed ruins nature's harmony  
The earth is shaltering, the atmosphere is heating up  
The stars would never shine  
The begining of the millenium .... bring war criminals  
Witness Bosnia, Somalia ..... watch the world  
crumbles  
Plagued by terrorism

Let's start our revolution for green and peace  
Let's start our revolution for green and peace  
Let's start our revolution for green and peace  
Let's start our revolution for green and peace

The sun, the earth, the moon, and the stars  
You are the witness for the universe constitution

Constitution and democracy made by man  
Could never solve problems (world conflict)
